

# Learning Management Systems (LMS)

Train your people. Measure results. Drive growth

## Providing a complete solution for your learning needs

An LMS provides a simple and efficient online training platform, focusing on the effective distribution of training and development resources. Learners can easily access the training courses on any device at a suitable time, paving the way for a conducive, learner-friendly environment. A seamless LMS is easy to use, and the design and structure are intuitive and standardised.

## talent lms

TalentLMS is an e-Learning platform built for success. It is easy to learn, easy to use, easy to like and highly rated.

-  **Build:** Create courses easily
-  **Organise:** Keep learners on track
-  **Customise:** Design every detail
-  **Deliver:** Meet and connect
-  **Scale:** Reach everyone with one account

As an LMS solution, Tugela People offers TalentLMS – an all-in-one, feature-rich remote learning solution that's ideal for organisations of any size - regardless of industry and geographic location. So whether you're training employees, customers, or partners, you can provide all types of training - from onboarding to compliance - from one platform. In addition, this online lifelong training software lets you develop, deliver, and manage training programmes that help great teams grow.

- Supports 100's of integrations
- Connect all your system to simplify your workflows.
- Automated learning – set automated actions & save time on administration
- Enterprise-level features – including customisation, Single Sign On (SSO) & advanced security
- eCommerce - grow your business and sell courses online or offer eLearning content subscriptions.
- Access to a library of ready-made courses

TalentLMS has an adaptable pricing model and offers a free ongoing trial so that you can try it out with no risk. The best part is that any work you've done on the system will still be available if you decide to adopt the solution.

Like all of the solutions Tugela People offer their clients, TalentLMS is considered the best-in-breed.

Tugela People also provide bespoke integration of TalentLMS (over and above the native integrations already offered) into any system that allows API integrations to enhance your systems capabilities.

## Implementation & Training

Partner with us, and you're assured of the best and most cost-effective LMS, with the confidence that your online learning is professionally implemented and managed.

If you have decided TalentLMS is the right solution for you, why not take advantage of our set-up and configuration service? Firstly, we will determine what features and advanced functionality you require (through our requirement gathering process) and then set up and customise TalentLMS for your organisation. This includes the customised branding of your portal and importing of your user data.

Once your TalentLMS is set up and configured to your requirements, you and your team will want to use the system efficiently and effectively to deliver on your people and organisational learning requirements.

By engaging with the Tugela People e-Learning training team, you will be empowered to successfully use TalentLMS independently. Our consultants will provide all relevant training and coaching on any aspects of the system you require, including system use, course set-up and producing reports and dashboards. The training provided will be customised to your unique requirements.

## Post Implementation Support

Helping you to make the most of your TalentLMS

Once your TalentLMS is up and running, we will provide you with ongoing support through our established Managed Services division. This ensures that your online training platform is streamlined and continues to meet your organisational requirements.

Working in partnership with you, we provide an ongoing support service above and beyond the standard TalentLMS support.

By partnering with Tugela People, you're assured of the best and most cost-effective LMS, with the confidence that your online learning is professionally implemented and managed.

To discuss your requirements and find out more about TalentLMS, please contact us on tel +44(0)1908 030360 or email: [info@tugelapeople.com](mailto:info@tugelapeople.com)

Tugela People will provide you with a demo of the system and set-up a free trial.

## Upskill your teams with ready-made courses

If you are looking to kick off your training but do not have the course material available or the time to put it together, then look no further.

TalentLibrary is a growing collection of ready-made courses built for compliance and soft skills training that are available immediately as an add-on subscription to TalentLMS.

- Learning that sticks
- Written and review by experts - loved by users
- Bonus lovable & addictive characters

TalentLibrary boasts 29 different collections with over 268 courses, with new courses being added regularly. Additionally, it contains 12+ skills for your teams to practice, including communication, adaptability, leadership, persuasion, problem-solving and critical thinking.

The courses have been created by subject matter experts, scripts writers, professional animators, instructional designers, and an in-house team of fact-checkers, editors, and technical staff. Using the power of visual design and the art of instructional design to develop high-quality content. As part of the free TalentLMS trial, you also have 14-days complimentary access to TalentLibrary.
