

# Spring Clean your sage People System

Is your Sage People System running effectively and meeting all your business requirements?

Take advantage of this opportunity to address those Sage People enhancements that you've been delaying and let us help you:

- Review if your system is addressing your needs and set-up for future demands,
- Enhance your system,
- Take advantage of new functionality,
- Identify and establish a plan to address any additional investment, training, and support needs.

**Tugela People are offering a free of charge Adoption Overview to help kick start your Sage People spring clean.**

#### The process:

1. An initial call with a Tugela People HRIS consultant to determine your Sage People priorities and the areas of focus.
2. We will collaboratively review your Sage People system and functionality, determining where there is scope for development.
3. Our HRIS consultant will document the findings and present you with our recommendations, based on your priorities.
4. We can discuss how to take any recommendations forward in the form of a further system health check, scope out an additional project, or provide ongoing support via our Managed Services team.

## Adoption Overview

This process helps determine which areas of the system you are/are not using, highlights any key areas for development and assists with producing a system roadmap based on your priorities.

Often, an adoption overview can be a great starting point to understand where there are gaps - systems evolve, businesses progress and change over time, which can often mean that the system you originally implemented no longer meets your needs.

## System Health Check.

With extensive experience of implementing and supporting Sage People globally, we know what "good" looks like.

This is an opportunity for our expert consultants to take a deep dive into your Sage People system and examine any areas of potential improvement or inconsistencies. From this we will propose corrective actions and suggest enhancements as appropriate. The process looks at your current set-up as well as industry best practice and identifies how to ensure the system meets your changing business needs.

You'll get a full list of recommendations, with proposed actions, to help you bring your system up to optimum effectiveness. This process often highlights training needs, that will help to increase user productivity and employee engagement. As an accredited Sage People training partner, we can also provide this service.

## Ongoing Managed Services Support.

Having an adequate level of resources with the appropriate requisite skill set is paramount to ensuring the ongoing successful utilisation of your Sage People system.

Managed Services provides this essential assistance, ensuring that your system continues to support your people function and company. We provide a flexible, full-service to meet your ever-changing needs. Whether you require support on day-to-day administration, simple fixes, enhancing existing or using new functionality or complex system configurations, our team of consultants can provide the expertise on how to make Sage People work best for you. We also keep a close eye on trends and upcoming changes that may impact your system.

We act as an extension of your own team, so you can enjoy the benefits of your system with greater flexibility and less expense. And because we understand the people challenges that mid-range companies face, especially high growth companies, we offer solutions that work best for you, your people, and your processes.
